

Save Our Sea Turtles

Turtles are one of the most beautiful animals in the ocean, but they are also in danger. How can we help them?

We should keep our oceans clean. Turtles eat jellyfish, crabs, other sea animals, and plants. Dirty oceans are dangerous to turtles and the food they eat.

We should protect turtle nests. Turtles lay their eggs in nests on the beach. Sometimes birds and other animals eat the eggs or baby turtles.

Sea Turtle Rescue Center

The Sea Turtle Rescue Center has safe beaches for turtles and their nests. It helps sick turtles in its animal hospital. Then it puts the healthy turtles back into the ocean. Turtles are happiest in the ocean.
